

AESF's Mission Statement

The American Electroplaters and Surface Finishers Society, Inc. (AESF) is an international society that advances the science of surface finishing to benefit industry and society through education, information and social involvement. Membership is open to all surface finishing professionals, as well as those who provide services, supplies and support to the industry.

AESF Week '99—January 25-29

© THE WALT DISNEY CO.

This is the AESF Week edition of *P&SF*. Read all about the technical program, exhibit, golf, 5K run, silent auction and social events starting on page 10.

1998 Shop Guide Now Available

Extra copies of the just-published *1998 Shop Guide* can be ordered from the AESF Bookstore. Call 1-800/344-2052.

Is There a Training Course In Your Future?

See the offering of AESF Training Courses on p. 58.

AESF Publishes P&SF

Laminate manufacturing for electronics applications is a high-tech business. This photo of a state-of-the-art treater with the latest instrumentation and controllers illustrates some of the technology used by QLP Laminates, Anaheim, CA. The company is also using the latest wastewater treatment technology to enhance quality, save money and build a bridge to zero discharge (p. 40).

Table of Contents

January 1999 • Volume 86, Number 1

Features

Mass Laminate Manufacturer Builds Bridge to Zero Discharge

40

The Design for the Environment Printed Wiring Board Project: A Partnership to Identify Cleaner Technologies

K. Hart, D. Singh, H. Evans, L. Kincaid, J. Geibig & Mary Swanson

46

50

Chemical Precipitation Wastewater Treatment Systems
Samy Y. Morcos
